

Math 1B Greensheet Scavenger Hunt

Working in groups, locate the sections of the greensheet where each of the following fragments is found. You will be asked to identify the section and to read the entire sentence aloud (up to the period).

If you only bring a TI-89 or TI-92 to a test,

If you do not want to stay beyond the 8th week,

You are expected to read

Homework also develops critical thinking,

This splitting method

If you alter the work

If you take all three midterms,

If you do not take the final exam,

In order to encourage participation,

My zero tolerance policy towards cheating is:

You must take responsibility for seeking assistance –

In addition to helping students with dyslexia,

If you spend the entire class taking notes,

Try not to spend too much time

As room scheduling permits,

When you are finished with the scavenger hunt, you may begin working together on the Greensheet Take Home Quiz below. You make work together to find the answers, but each person must submit their own copy of the quiz with the answers in their own handwriting.

Greensheet Take Home Quiz

Last name: _____

First name (as registered): _____

Name you wish to be called in class: _____

Write down the exact text of the remainder of each sentence (up to the period).

If you stop attending and do not officially withdraw,

If you do not read the textbook each day,

Each day, you should be

If you only do the assigned problems,

If you do the homework

I believe that homework

For midterms, I assume

To be fully prepared for the midterms

When I don't curve,

If you fail the 1st midterm,

Things which really annoy me to no end, and which I will address in no uncertain terms:

students who cheat –

students in precalculus and above

students who don't study

Despite the length and language of my greensheet, I'm actually a nice guy to students who are serious about learning and working hard. If that doesn't describe you,

LAST QUESTIONS: These answers are used to create a private code for you to use on tests.

What day of the month is your birthday ? ___

What are the last 2 digits of your address ? ___

What are the last 2 digits of your zip code ? ___
