Consider the statement "All calculus students have passed the same placement test."	SCORE:	_/5 PTS
Write the statement symbolically, using TWO variables. State clearly the domains and predicate. S= {canculus students}, P(st)= "s has passed t", T= { PLACEMENT TESTS}, FteT: \forall s \in S \in S \in C(s,t)	hout	REDIT IF DICATES THAVE AND "t"
[b] Write the negation of the statement symbolically, using the domains and predicate from [a]. $\sim (\exists t \in T: \forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t)) \equiv \forall t \in T, \sim (\forall s \in S, P(s,t$		E):~P(s,t)

Consider the statement "De Anza students enrolled in at least 5 units are eligible for an Eco Pass". SCORE: / 6 PTS	S
[a] Write the statement symbolically, using TWO predicates. State clearly the domain and predicates.	
(2) D = { DE ANZA STUDENTS}	
(D) P(x) = "x IS ENROLLED IN AT LEAST 5 UNITS" DON'T HAVE "X"	0
(1) Q(x)= "x IS ELIGIBLE FOR AN ECO PASS". (YXED, P(x) -) Q	(\times)
[b] Write the negation of the statement symbolically, using the domain and predicates from [a].	50
Also, write that negation informally (in natural sounding English).	(13
~(VxeD, P(x) - Q(x)) = 7xeD: ~(P(x) - Q(x)) = 7xeD: P(x)^	Qb
THERE IS A DE ANZA STUDENT ENPOLLED IN AT LEAST 5 UNITS	1
WHO IS NOT ELIGIBLE FOR AN ECO PASS	
[c] Write the inverse of the statement symbolically, using the domain and predicates from [a].	5
$\forall x \in D \sim P(x) \rightarrow \sim Q(x)(\Omega)$	

Let P(x) be the predicate "x is a perfect square". Let Q(x) be the predicate " $x^2 - 1$ is a multiple of 5". Let $D = \{1, 4, 5, 7, 9\}$ be the domain of both predicates.

SCORE: ____/6 PTS

[a] Find the truth set of P(x). You do NOT need to justify your answer.

[b] Find the truth set of Q(x). You do NOT need to justify your answer.

[c] Is the statement $P(x) \Rightarrow Q(x)$ true or false? Explain very briefly.

Write the following statement <u>informally</u> (in natural sounding English). SCORE: /3 PTS Your answer should NOT use the phrases "for all", "for every", "for each", "for any", "such that", "there exists", "there is". $\forall s \in S, \exists m \in M : \sim T(s, m)$ where S = set of all De Anza students, M = set of all De Anza math classes,T(s, m) ="s has taken m" and , NO DEANZA STUDENT HAS TAKEN EVERY DE ANZAMATH CLASS!

Let $A = \{-2, 1, 3\}$ and $B = \{-2, 0, 2\}$.

SCORE: /6 PTS

Let P(x, y) be the predicate " $2x + y^2$ is a multiple of 3" with domain $A \times B$ (ie. $x \in A$ and $y \in B$).

Determine if the statement " $\forall x \in A, \exists y \in B : P(x, y)$ " is true or false.

Justify your answer as shown in lecture. Use as few examples/counterexamples as possible.

FOR EACH XEA TEST FyeB: P(x,y)

EITHER X=-2 FyeB:-4+y2 IS A MULTIPLE OF 3 TRUE y=2 or-2

H ITEM WORTH

Prove that the following argument is valid using the Rules of Inference. Give the reason for each step as shown in lecture.
