

Go to the class website at <http://nebula2.deanza.edu/~mo> (or simply Google "mo de anza").
Find the link for Math 10, and then find the Syllabus:

Questions about the Syllabus

1. What are the required materials?
2. How many homework assignments are there?
3. What assignments can be turned in as a group?
4. What is the course policy on late homework and labs?

Questions about the Calendar (on the same page as the Syllabus)

5. What assignments are due in the first two weeks?
6. What are the dates of the midterms?
7. What is the date and time of the final exam for your section?
8. How many labs are there?
9. What are the deadlines for dropping and withdrawing from the course?

Exploring the Website – Find the link for Math 10 Handouts and open the PDF file for Chapter 1. I highly recommend you print this out and bring it to class to take notes (or use a tablet)

10. What is the Topic for Chapter 1?

11. Do you any comments about improving these handouts?

Frequently Asked Questions – Find the "FAQ" at the top of the page.

12. Find the question that starts "I need help in this class..." What are three things you can do if you need help?

13. Read the two questions that have two do with cheating and sign and date the following statement:

I have read the course policy on cheating in both the syllabus and the Frequently Asked Questions . I understand and agree to the terms as outlined in these policies.
